

OFFLINE

1 Read claims

Source text + time
Keep source identifiers

2 Compile direct witnesses

Match a later replacement
Store its earliest time per claim

QUERY TIME

3 Select evidence

Keep eligible claims at query time
Preserve relevance rank; take top k

Illustration: a value returns

c1: A at t1 c2: B at t2 c3: A at t3

Direct witnesses: c2 replaces c1; c3 replaces c2

No replacement follows c3.

Eligibility intervals
